ALL SORTS.

About 3,000 tons of coal is on fire near Fresno, California. Spontaneous combustion started the fire.

The Warren Junior dance on the 3d will be an extra affair and ought to draw a good crowd. Tickets \$1.00.

Try the Grand Opera Cigar at the Arlington. Geo. Shrieves will give you further information as to the other brands being first class.

Mr. Alley Kelly was incarcerated in the county reformatory yesterday for issuing verbal challenges to the entire earth, on Main street.

An electric drill in an Idaho mine recently performed the feat of boring a 2-inch hole through twenty-feet of solid granite in less than four hours.

The jack rabbit crop that was almost knocked out by the hard winter of two years ago is again increasing with its old time productivity.

A million dollar bank robbery occurred in England recently. The London police must be a snide lot from the way the "Rippers" and all round criminals defy them.

The funeral of John E. Morris yesterday was largely attended. The services were conducted by Rev. C. L. Logan and under the auspices of Union veterans. Requiescat in pace.

When the President of the Agricultural Association goes straight to the race track in person and builds a kitchen for the restaurant it looks as if he meant business and was doing his share.

Miss Maude Doane, daughter of County Clerk Doane, has been confined to her bed for several days by a severe attack of fever. The young lady is now recovering and will soon be able to be up.

A shoemaker at Manchester, N. H., has an order for a pair of shoes which are to be 21 inches long and eight inches across the ball of the foot. They are for a North Carolina clergyman.

A man in Canton, Ohio, got up in the morning, built the fire and then fell dead. Wives, if you love your husbands, you will read this and then take warning. Don't subject your dear ones to such peril.—Silver State.

Nevada should have cider and vinegar to sell in place of buying. In the Eastern States cider sells \$5.00 per barrel and in Nevada from \$20 to \$25 per barrel. There is no State that offers better opportunities for higher pay than this one for labor.

The only true statement in regard to the death of John E. Morris can be found in the APPEAL. His age, nativity etc., is all correct and can be relied upon. Our contemporaries are way off the track. If you don't read the APPEAL you don't follow the age.

New York World: There seems to be various explanations of why Minister Egan was so distasteful in forwarding the news of Balmain's fall. Perhaps his fondness for nitrates led him to save a penny at the cable office by taking advantage of the night rates there.

J. M. Barry, the brilliant young Scotchman who wrote "A Widow in Thrums," "My Lady Nicotine," and other readable books, is represented in the Argonaut of September 28th by a well told story entitled "The Family Honor." It is a gruesome story of the skeleton in the closet of one of the great Scotch families.

The late John Morris was with General Thomas' command when "The Rock of Chickamauga" chased General Hood through Tennessee. Morris was the only one of his family in the Union Army, his brothers all being in the Confederate service. His father before the war owned a plantation and slaves, but when peace was declared he was bankrupt. Morris never had much to say about his family, probably because of the slaves he and his brothers took during the war.

Holstein Cattle.

The Kaupisch Brothers are credited by the Genoa Courier with saying that Holstein cattle are not good milkers but make excellent beef cattle.

The Kaupisch Brothers, if they made such a statement, evidently know little about milk cows. Mr. Henry Fulstone of Jack's Valley says these gentlemen certainly are not posted and do not know what the merits of the cattle are. The facts are, they took the first prizes over all breeds in 1889 in the following States: New York, Illinois, Pennsylvania, Michigan, Ohio, Iowa, Massachusetts, Minnesota and Wisconsin. Mr. Fulstone has the papers to prove it, and any one can get them by addressing Thomas B. Wales, Iowa City, Iowa.

Furthermore, Smith, Powell & Lamb of Lakeside Stock Farm, Syracuse, New York, have a cow that has given 26,024 pounds, 2 ounces of milk in one year, a four-year-old that has given over 23,000 pounds in one year, a two-year-old that has given 18,484 pounds, 13 ounces in one year, a herd of mature cows that has averaged 17,166 pounds, 1 ounce in one year, a two-year-old that made 16 pounds, 9 ounces of butter in one week. All these cows are Holsteins and their records have a world wide reputation. Let the proprietors of the Carson Valley Creamery investigate the records of thoroughbreds and not take the products of halfbreeds as a standard.

Board of Equalization.

All the preliminary work of investigating records from the Assessors of the counties in the State of Nevada is over with. Today the Board will hear any one who desires to make a statement before it, in regard to taxed valuation of certain properties, etc. O. H. Swingley, Assistant Tax Auditor of the Union Pacific, is in the city in the interest of the U. P. Some years ago this company graded fifty miles of road bed from Pioche to the mining districts around it. Not a single tie or rail has been laid upon it and the Assessor of Lincoln county has assessed it for \$2,000 a mile. This is unheard of in the assessment of railroads, as they are not considered taxable until something material has been placed upon the road bed.

It is for the settlement of such cases as this one that the Board was created. In other cases of equal importance they will raise or lower as they see fit.

A Technicality.

The trial of Ed Taylor, charged with perjury, came up for trial in the District Court yesterday morning before Judge Rising. After all the witnesses were sworn the District Attorney made a motion to dismiss the action as the proof did not correspond with the indictment. Taylor said he had worked two months which makes his previous working months without limit, whereas the prosecution tried to prove that he stated he had worked only two months, thus proving him a vagrant and trying him for perjury. This technicality acquitted him.

Mr. A. J. McGowan appeared for Taylor and, although a young attorney, handled his case with considerable tact. Give the young men a chance and let them prove themselves.

No Fee.

Somebody whose ideas of advancement are as dense as his gall has started the report that a fee is required at the Agricultural pavilion to make an exhibit. It is quite the contrary. Nothing is charged to make an exhibit, but you get a premium for the display made. One of the electric lamps will burn all night and a watchman will be in attendance. People should not make such statements as it only checks the progress of this district.

Back Again.

Col. John Rosser is in the butcher business again. He realizes that he is as capable of handling it as any man on the coast. No one who ever bought meat of John will object to his returning. As a wielder of the cleaver John has no superior and few equals.

There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't it is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
